<b>Comments</b>	Observations: The following points have been raised by the Chesterton PC Planning Committee:- 1) Is the existing foul drainage system inadequate to cope with the hotel? 2) Are measures in place to deal with food residues, cleaning detergents and any noxious emissions? 3) Is the weldmesh fencing adequate for the pumping station in its current location close to traffic flows and potential misjudgments? There is general recognition that this is a necessary provision for the hotel.
