NOTES:

All soft landscaping to strictly conform to Countryside Properties PIC Performance Specification for Soft Landscape Works.
 No species, centre size etc..... is to be amended without the prior approval of the landscape designer.
 The use of pesticides and other non-organic garden chemicals are to be kept to a minimum to prevent any cumulative effects within the food chain.
 Good horticultural practices shall be implemented within the planting scheme e.g. use of peat-free composts and mulches and application of non-estival pesticides.
 Shrub Bed Topsoil:
 The level of shrub bed topsoil is to be finished 50mm below the adjacent paving and grass so that when bark mulch is applied it does not spill over.
 Do not scale.
 All trees/struts to be checked by structural engineer in compliance of NTRC requirements for design of foundations.
