

Figure list

Non-technical summary

- Figure NTS1 Site location and application boundary
- Figure NTS2 Consented 2006 master plan for the wider SW Bicester scheme
- Figure NTS3 Application boundary
- Figure NTS4 Land use plan
- Figure NTS5 Building heights
- Figure NTS6 Building density

Chapter 1: Introduction and EIA methodology

- Figure 1.1 Site location
- Figure 1.2 Boundary of the outline consent 06/00967/OUT
- Figure 1.3 Application boundary
- Figure 1.4 Location of developments considered for cumulative assessment

Chapter 2: Site description and the proposals

- Figure 2.1 Land use plan
- Figure 2.2 Building heights
- Figure 2.3 Building density

Chapter 3: Air quality

- Figure 3.1 Location of sensitive receptors

Chapter 4: Natural heritage

- Figure 4.1 Sensitivity of receptor – natural heritage
- Figure 4.2 Magnitude of change – natural heritage
- Figure 4.3 Significance of effect – natural heritage
- Figure 4.4 2005 phase 1 habitat survey
- Figure 4.5 2012 updated phase 1 habitat survey
- Figure 4.6 Great crested newt potential of the site in 2005
- Figure 4.7 Trees inspected for bat roosts in 2004 and 2005

Chapter 5: Social and community

- Figure 5.1 Sensitivity of receptor – social and community
- Figure 5.2 Magnitude of change – social and community
- Figure 5.3 Significance of effect – social and community

Chapter 6: Traffic and transport

- Figure 6.1 Sensitivity of receptor – traffic and transport
- Figure 6.2 Magnitude of change – traffic and transport
- Figure 6.3 Significance of effect – traffic and transport
- Figure 6.4 Location of road links

Chapter 7: Hydrology and water quality

- Figure 7.1 Sensitivity of receptor – hydrology and water quality
- Figure 7.2 Magnitude of change – hydrology and water quality
- Figure 7.3 Significance of effect – hydrology and water quality
- Figure 7.4 Environment Agency aquifer and groundwater information

Chapter 8: Summary

No figures

Chapter 9: Glossary

No figures
