Notes

- This drawing has been prepared in accordance with the scope of RPS's appointment with its client and is subject to the terms and conditions of that appointment. RPS accepts no liability for any use of this document other than by its client and only for the purposes for which it was prepared and provided. If received electronically it is the recipient's responsibility to print to correct scale. Only written dimensions should be used.
- The drawing should be read in conjunction with all other relevant drawings and specifications.

- Inward member dimensions are centre to centre and do not relate to road change distances.
- Member cover levels quoted are approximate and are to be adjusted to suit final levels.
- All pipework to enter manholes with level valves. Single levels quoted are the lowest invert levels.
- All bedding to be Class 5 unless otherwise stated. Quality corrections are to be accompanied by concrete.
- All outlet levels are to be checked prior to commencement of drainage works.
