Hi Andy

Thank you for sending the amended street lighting layout, I can confirm the street lighting layout/design shown on drawings 1903/MSR/1301, 1302 & 1303 Rev C is approved by OCC, please find attached plans showing the maintenance numbers for the new street lights. Also attached is the electrical test certificate which needs to be completed by the street lighting contractors and our highway standard detail drawings.

Kind regards

Dave

Dave

Thanks for speaking with me earlier

I update the drawings as requested, including the following

Drawing 1301 Rev C

- includes 2 additional columns at locations 46 and 47 at the MSR/Shakespeare Roundabout. As agreed column 61 will not be required due to the proximity of the proposed column to the east.
- I also noted that the 2 columns further west of columns 46 and 47 would not have been installed. I have therefore added 2 additional columns here.
- Shown existing column 45 on opposite side of road as per OCC dwg.
- OCC column spec added.

Drawing 1302 Rev C

- OCC column spec added.
- Columns to be removed

Drawing 1303 Rev C

- 1 additional column located opposite the Loddon Close junction
- OCC column spec added.
- Columns to be removed

I trust these changes are acceptable and we look forward to receiving TA from Street Lighting

Many thanks

Andy

Hi Andy

Thank you for the calculations, I have just noticed on your layout that the existing columns by Middleton Stoney Road Roundabout with Shakespeare Drive is incorrect,

attached is the street lighting layout drawing showing the existing lighting – please note that street lights 46, 47 & 61 shown on A3897 where not installed.

I was also wondering if it would be possible to install a header column at the Loddon Close junction as this a very busy junction, would it also be possible to show the attached column specification and the street lighting columns to be removed as part of you works on the layout drawings.

Many thanks

Dave

Dave

Sorry for the slow turn around – been hectic.

I've updated this on the drawings to show the calc results and also attach the Philips document for you

Many thanks
Andy

Subject: Bicester, Middleton Stoney Road Traffic Calming

Hi Andy

Mike Smith in our Roads Agreement Team has passed me the latest street lighting layout (drawing No: 1903/MSR/1302 Rev A) for the new traffic calming arrangements on Middleton Stoney Road Bicester and I was if you could forward me the calculations so I can make sure the light classes are being met.

Many thanks

Dave
