

Transport Statement

1. The application site adjoins Langford Lane where there are good, frequent bus services to Oxford via Kidlington and to Woodstock.
2. The proposal includes 16 secure and covered cycle racks and space for 3 motorcycles.
3. The scheme makes provision for 60 parking spaces in order to meet the Oxfordshire County Council Standard. However, it is not anticipated that this level of provision will be required as car ownership amongst the students expected to attend is very low. Some staff currently employed on the airport may relocate and therefore the number of vehicle trips will be significantly less than was the case from this site 3 years ago.
4. Previous experience with high levels of students at Oxford Airport indicates that the majority remain on site where a range of facilities are provided. Kidlington is within easy walking distance for young, healthy individuals.

A full Transport Statement will be submitted as soon as possible to replace this summary.
