Cherwell
District Council
North Oxfordshire
C8 SPORADIC DEVELOPMENT IN THE OPEN COUNTRYSIDE INCLUDING DEVELOPMENTS IN THE VICINITY OF MOTORWAY OR MAJOR ROAD JUNCTIONS WILL GENERALLY BE RESISTED.

9.12 Sporadic development in the countryside must be resisted if its attractive, open, rural character is to be maintained.

9.13 Policy C8 will apply to all new development proposals beyond the built-up limits of settlements including areas in the vicinity of motorway or major road developments but will be reasonably applied to accommodate the needs of agriculture. There is increasing pressure for development in the open countryside particularly in the vicinity of motorway junctions. The Council will resist such pressures and will where practicable direct development to suitable sites at Banbury or Bicester.

C15 THE COUNCIL WILL PREVENT THE COALESCENCE OF SETTLEMENTS BY RESISTING DEVELOPMENT IN AREAS OF OPEN LAND, WHICH ARE IMPORTANT IN DISTINGUISHING THEM.

9.30 Each town or village has its own separate identity, and it is important that development on areas of open land between them is restricted to prevent their coalescence. Some gaps are more vulnerable than others; rural communities may feel particularly threatened where they are in close proximity to urban areas eg Banbury and Bodicote, Banbury and Drayton, Banbury and Hanwell, Bicester and Chesterton, Bicester and Launton, Bicester and Wendlebury. In addition there are villages which are separated by small stretches of open land which need to be preserved to maintain the villages' identity eg. Alkerton and Shenington, Sibford Ferris and Sibford Gower, Barford St Michael and Barford St John, Middle Aston and Steeple Aston. Similarly the gap between Upper Heyford village and the former RAF Airbase is narrow and vulnerable and should be maintained as open land.

C28 CONTROL WILL BE EXERCISED OVER ALL NEW DEVELOPMENT, INCLUDING CONVERSIONS AND EXTENSIONS, TO ENSURE THAT THE STANDARDS OF LAYOUT, DESIGN AND EXTERNAL APPEARANCE, INCLUDING THE CHOICE OF EXTERNAL-FINISH MATERIALS, ARE SYMPATHETIC TO THE CHARACTER OF THE URBAN OR RURAL CONTEXT OF THAT DEVELOPMENT. IN SENSITIVE AREAS SUCH AS CONSERVATION AREAS, THE AREA OF OUTSTANDING NATURAL BEAUTY AND AREAS OF HIGH LANDSCAPE VALUE, DEVELOPMENT WILL BE REQUIRED TO BE OF A HIGH STANDARD AND THE USE OF TRADITIONAL LOCAL BUILDING MATERIALS WILL NORMALLY BE REQUIRED.

C31 IN EXISTING AND PROPOSED RESIDENTIAL AREAS ANY DEVELOPMENT WHICH IS NOT COMPATIBLE WITH THE RESIDENTIAL CHARACTER OF THE AREA, OR WOULD CAUSE AN UNACCEPTABLE LEVEL
OF NUISANCE OR VISUAL INTRUSION WILL NOT NORMALLY BE PERMITTED.

9.70 The Council wishes to ensure that new development, including changes of use, does not prejudice the environment of the areas concerned. The above policy seeks to prevent the introduction of incompatible non-residential uses in residential areas.

C33 THE COUNCIL WILL SEEK TO RETAIN ANY UNDEVELOPED GAP OF LAND WHICH IS IMPORTANT IN PRESERVING THE CHARACTER OF A LOOSE-KNIT SETTLEMENT STRUCTURE OR IN MAINTAINING THE PROPER SETTING FOR A LISTED BUILDING OR IN PRESERVING A VIEW OR FEATURE OF RECOGNISED AMENITY OR HISTORICAL VALUE.

9.76 Not all undeveloped land within the structure of settlements can be built on without damage to their appearance and rural character. Where the existing pattern of development is loose-knit there will often be a compelling case for it to remain so for aesthetic, environmental or historical reasons.

9.77 Proposals that would close or interrupt an important view of a historic building eg a church or other structure of historical significance, will be resisted under this policy. The Council will also have regard to the importance of maintaining the setting of a listed building and will resist infill development that would diminish its relative importance or reduce its immediate open environs to the extent that an appreciation of its architectural or historical importance is impaired.

9.78 Proposals that would close or interrupt an important vista across open countryside will also be discouraged, as will the loss of trees of amenity value or the loss of features such as boundary walls where they constitute an important element of an attractive or enclosed streetscape.

ENV1 DEVELOPMENT WHICH IS LIKELY TO CAUSE MATERIALLY DETRIMENTAL LEVELS OF NOISE, VIBRATION, SMELL, SMOKE, FUMES OR OTHER TYPE OF ENVIRONMENTAL POLLUTION WILL NOT NORMALLY BE PERMITTED.

10.4 The Council will seek to ensure that the amenities of the environment, and in particular the amenities of residential properties, are not unduly affected by development proposals which may cause environmental pollution, including that caused by traffic generation. In addition to the above policy, policies AG3 and AG4 of chapter 8 relate specifically to intensive livestock and poultry units and associated problems of smell and waste disposal.

10.5 Where a source of pollution is already established and cannot be abated, the Council will seek to limit its effect by ensuring that development within the affected area maintains a suitable distance from the pollution source.
