Comments	<input type="text" value="My objection is that Langford Village is a highly populated residential area and to even consider placing this bright white 16m pole monstrosity which will look like something out of Star Wars, it is unbelievable. How could you want to spoil the area. Why hasn't the council written to the residents near this area, i.e. me to inform us and give the reasons why this is happening? I am also very concerned about the health aspects of these masts. Why can't these masts be on a main road away from a residential area i.e. Wretchwick Way on the side of the fields. Hutchinsons Networks and the council are the only ones benefiting from this not the Langford Residents. How much income is the council going to benefit from this? I am sure the CEO of Hutchinsons and the councillors who are making this decision do not live near Peregrine Way."/>
