| <b>Type of Comment</b>    | <input type="text" value="Objection"/>   |
| <b>Type</b>               | <input type="text" value="neighbour"/>   |
| <b>Comments</b>           | <input type="text" value="Tyrrell Road is already with a lot of traffic without the new houses, beside with all the cars parked in the road and the trucks from the construction will make the traffic impossible to leave or enter the site. And if there's an emergency will be impossible to safe the people, being the only entrance for Bloxham Vale Site and the new site construction. Another very important question is Bloxham Vale Site is already struggling with water sewage and the pressure of clean water, what's going to happen if there's more houses? I want to know who is going to be responsible if any fire happens and the fire engine can't not enter because of the traffic/parking with the increase of the habitants."/> |
