<b>Type of Comment</b>	Objection
<b>Type</b>	neighbour
<b>Comments</b>	<p>Dear Sir / Madam</p> <p>I am writing in response to the application for a fishing village with holiday lodges next to the former Wroxton Motocross track</p> <p>Firstly this part of the country has an abundance of places to fish, so I not see any justification or need for another one</p> <p>Likewise, we are also very well served with holiday accommodation in North Oxfordshire to suit all budgets, so there does not appear to be any justification is creating more holiday lodges on agricultural land, especially in a location where the access needs to be from a very fast and busy road</p> <p>Despite our close proximity to Banbury, our village and the surrounding villages have very little light pollution for which we are very grateful and keen to protect. Allowing a holiday village to be built on the edge of the village, which could well be given consent to expand further in the future could well increase the light pollution</p> <p>We are also mindful that when the neighbouring land was used for large Motocross events, the endangered Great Crested Newts, who occupy the land were at risk as no measures were put in place to protect their environment and there does not appear to be an acknowledgement of this risk in the current application</p> <p>For the reasons above, I hope that you will reject this application</p> <p>Regards Andrew Barnes</p>
