Comments	<input type="text" value="Cropredy is a Category A village and should only be considered for minor development infill and conversion to existing structures. The total amount of housing that Cherwell District have agreed to in recent years, means that they have exceeded their 5 year house building commitment and so this development is unnecessary and, as you can see from all the objections, extremely unpopular. The infrastructure is not here to support this proposed increase in population. The local Doctors surgery and schools don't have any spare capacity and public transport is virtually nonexistent. The neighbouring villages, including my own, will suffer from the increase in traffic and we already have over a thousand vehicles going through here every day according to a recent study. The villages around here are under attack from developers and whilst some minor developments are inevitable and acceptable, this size is not and so we object strongly."/>
