Comments	<input type="text" value="This development is totally out of scale with the proposed site and will be another loss of more green belt. The existing road network cannot sustain the predicted traffic levels and little can be done as regards road widening within Chesterton. Navigation systems will send traffic from the South through Little Chesterton and The Hale. From the East then over the A41 and up the lane into Chesterton, Green lane & The Hale. No one will follow any proposed signing. There is no foot / cycle path along the whole of the A4095 until Vendee Drive, neither is there one from Green Lane to the A41. There are more and more pedestrians walking these routes who presumably are working at the existing Hotel and do not have or can afford a car (The hotel already has planning for more rooms). I am already very concerned about the safety of these pedestrians, especially on dark winter nights. If planning is given for this then I believe that they will then eventually expand to the whole of the existing Golf/Hotel & Spa site with unknown consequences . Just the wrong place."/>
