Comments	<input type="text" value="I am writing to once more object (in the strongest possible terms) to the proposed development. In addition to the negative environmental impact The scale of the proposed development will have, the suggested size of the new doctors surgery is frankly ridiculous. Once again Obsidian appears to be displaying a total disregard for the wants and needs of the villagers, the complete lack of infrastructure needed to support such a proposal, not to mention the environmental and aesthetic impacts of building such a huge structure in a small rural setting."/>
