Dear Thomas,

I hope you are the right person to ask about all of these applications for Baynards Green.

I am in the process of responding to the above applications – I have been consulted by CDC on 21/03267/OUT and via Single Response for the other two. An archaeological evaluation on the site recorded remains which will need to be investigated via conditioned mitigation in the southern half of the eastern parcel – I have recommended these conditions in my response sent to CDC for 21/03267/OUT.

No archaeological deposits which will require further mitigation were recorded in the western land parcel, which is subject to apps. 21/03266/F and 21/03268/OUT. Will it confuse the responses if I ask for archaeological mitigation conditions on one of the applications but not on the other two related applications?

Kind regards,

Victoria
