Comments	<input type="text" value="To whom it may concern, I'm writing in support of the above planning application. Swalcliffe Park Equestrian has not updated their schooling facilities for a number of years due to ongoing issues they have with their neighbours. As a consequence of this, other venues in the surrounding areas are improving their facilities and SPE is unable to remain competitive. By adding these natural looking obstacles- one is clearly 3 grass mounds- there is little impact on the surrounding landscape and SPE can continue to improve their offering. The facilities here have always been great, but really do need an upgrade now that cross country courses are getting more technical. There are very few schooling venues in the area which just run on grass which is a fundamental part of cross country riding. I wholly support the Taylor family in this application and look forward to using the new facilities next year. Kind regards Bel Thompson"/>
