<b>Comments</b>	<p>I am writing to once again object to this development and the red herring of a proposed doctors surgery which according to the new plans is still being called a community building.</p> <p>I object to this development for all the original reasons and find it astounding the Obsidian have been given this very lengthy time frame to come up with a new plan which will make the situation in the village even worse as far as facilities like electricity, water, roads, flooding go.</p> <p>They have not addressed any of the previous concerns. All they have done is draw some pictures of a modern looking building sometimes called a surgery, sometimes called a community building in the hopes that they can play on peoples emotions and health concerns by promising a surgery that will never be built.</p> <p>The amount of continued and new objections should show that the development is not needed, nor wanted.</p>
