Comments	<p>CDC is expecting the land allocated as Sports Pitches Area 1 and Sports Pitches Area 2 for formal outdoor sport provision to be transferred to CDC, along with a financial contribution, to deliver and maintain the sports pitches. The outdoor sport facilities, including pitch layout will be designed in line with the latest Sports Studies. The actual pitch layout is not expected to be what is shown in the design code Part 2. At present we would not wish to be specific in terms of the actual type of sports pitches to be constructed on the site but have the flexibility to provide the required type of pitches to meet the local need.</p> <p>It is important the land is transferred and appropriate for sports pitches, no obstacles, such as paths running across the area which might inhibit pitch layout. The area needs to have access for pitch construction and there needs to be a flow from one set of pitches, past the hedgerow to the second pitch area.</p>
