Comments	<p>Environmental Protection has the following response to this application as presented:</p> <p>General: Prior to the commencement of the development, a Construction Environment Management Plan (CEMP), which shall include details of the measures to be taken to ensure construction works do not adversely affect residential or other sensitive properties on, adjacent to or surrounding the site together with details of the consultation and communication to be carried out with the occupiers of those properties shall be submitted to and approved in writing by the Local Planning Authority. Thereafter the development shall be carried out in accordance with approved CEMP.</p> <p>Noise: No comments</p> <p>Contaminated Land: As no information regarding the status of the land has been received I would recommend that the full contaminated land conditions are placed on any permission granted:</p> <ol style="list-style-type: none">1. No part of the development hereby permitted shall take place until a desk study and site walk over to identify all potential contaminative uses on site, and to inform the conceptual site model has been carried out by a competent person and in accordance with DEFRA and the Environment Agency's "Land Contamination Risk Management (LCRM)" and has been submitted to and approved in writing by the Local Planning Authority. No development shall take place until the Local Planning Authority has given its written approval that it is satisfied that no potential risk from contamination has been identified.2. If a potential risk from contamination is identified as a result of the work carried out under condition [*1*], prior to the commencement of the development hereby permitted, a comprehensive intrusive investigation in order to characterise the type, nature and extent of contamination present, the risks to receptors and to inform the remediation strategy proposals shall be documented as a report undertaken by a competent person and in accordance with DEFRA and the Environment Agency's "Land Contamination Risk Management (LCRM)" and submitted to and approved in writing by the Local Planning Authority. No development shall take place unless the Local Planning Authority has given its written approval that it is satisfied that the risk from contamination has been adequately characterised as required by this condition.3. If contamination is found by undertaking the work carried out under condition [*2*], prior to the commencement of the development hereby permitted, a scheme of remediation and/or monitoring to ensure the site is suitable for its proposed use shall be prepared by a competent person and in accordance with DEFRA and the Environment Agency's "Land Contamination Risk Management (LCRM)" and submitted to and approved in writing by the Local Planning Authority. No development shall take place until the Local Planning Authority has given its written approval of the scheme of remediation and/or monitoring required by this condition.4. If remedial works have been identified in condition [*3*], the development shall not be

occupied until the remedial works have been carried out in accordance with the scheme approved under condition [*3*]. A verification report that demonstrates the effectiveness of the remediation carried out must be submitted to and approved in writing by the Local Planning Authority.
