Comments	<p>I write to object to the above planning application for the following reasons:</p> <p>Subject to your planing change there will be increased traffic on the main street - Tyrrell Road, which is not designed for such increased traffic. If there will be one single entrance with one main road for all of the residents - an already busy road will become even busier. Even though the builder Redrow hasn't finished the completion of the estate the current traffic on Tyrrell Road is unbearable for the residents. The proposed extension will undoubtedly present problems, as increased traffic means less safety for the pedestrian, less parking space, difficulty to drive through the estate and more air pollution.</p> <p>The drainage system must be considered as well, as during rainy period it can barely cope with the amount of water. Obviously if the same will be connecting the estate, means that the same public drainage will be in place.</p> <p>The extension of the estate should have a separate entrance using the main Bloxham Road and not alter the already difficult traffic conditions found on Tyrrell Road. Proper infrastructure must be planned and put in place before existing residence can be condemned to worse life conditions.</p> <p>Yours sincerely, Cristian Maxineanu</p>
