<b>Address</b>	<input type="text" value="9 Honeysuckle Way, Ambrosden, Bicester, OX25 2AN"/>
<b>Type of Comment</b>	<input type="text" value="Objection"/>
<b>Type</b>	<input type="text" value="neighbour"/>
<b>Comments</b>	<p>My main objection to this is the location....right next to a primary school? I do understand the thoughts on the technology safety are split into two main camps of pro and against, but essentially, the long term research has not yet been done as 5G is a new level of technology being used this way. I also understand thoughts and feelings can be very heated around this on both sides.</p> <p>Is it worth the gamble to risk developing minds and bodies without the proper long term effects being studied safely?</p> <p><a href="https://www.oxfordmail.co.uk/news/6633063.masts-ban-schools/">https://www.oxfordmail.co.uk/news/6633063.masts-ban-schools/</a></p> <p>I would not like to send my child to that school if a mast was so close to it. Certainly, if the mast goes ahead it would change my mind about moving to the area (I currently live in Ambrosden and was considering buying a house in Langford Village).</p>
