Overview

Tree Planting

A combination of tree, shrub and hedgerow planting along the site boundary and atop the proposed landscape bunds would partially screen the proposed sheds. Species selection includes a mixture of evergreen and deciduous trees to provide screening effects throughout the seasons.

Potential tree species selection:

- Alnus glutinosa (Alder)
- Acer campestre (Field Maple)
- Ilex aquifolium (Holly)
- Pinus sylvestris (Scots pine)
- Sorbus aucuparia (Rowan)

Approximate planting heights are shown below:

Year 1	4.5-5.0m
Year 15	9.5m

This drawing is to be read in conjunction with all other drawings and specifications within the package. These drawings have been prepared for design, development and costing purposes only. All dimensions in millimetres unless otherwise specified. Do not scale off this drawing, written dimensions to be taken only. All loose parts used are provided by the client and architect, except where otherwise expressly agreed in writing. EDP shall have no responsibility or liability for any loss direct or consequential. This drawing must not be copied in whole or part without prior written consent from EDP.
