Dear Sir/Madam,

I write regards the planning application - 23/00977/OUT
60 houses on the north side of Cropredy.

I am aware the land promoter has requested an extension until September regards this application from the original date in June.

Please can you reassure me that no further extensions are granted?

To live in the shadow of a potential housing development that destroys my local environment is bad enough without the process being dragged out.

This situation is causing me a lot of personal anxiety and distress. I feel the agent should have had everything prepared at original submission and they had all the time they needed before the start of this process to get their proposal together. I find the fact they can just request extensions to be unfair on the population affected by the proposal. It feels like one rule for them and another rule for the rest of us.

Kind regards

Anthony
