Subject: Conservation consultation response 24/00817/F

Dear Rebekah

Thank you for consulting the conservation team on the above application.

It is noted that there have been previous proposals on this site for the conversion of the stable building. This proposal is considered to largely address the concerns raised previously. The conversion is considered to retain the form and character of the stable building and will now not be so large that it dominates and appears incongruous. The materials proposed are in keeping with the existing and are considered to be consistent with the character of the area.

Overall in terms of impact on the historic environment only the proposal is considered not to be harmful to the closest Listed Buildings as a result of development within their setting and therefore there are no objections in heritage terms.

Due to the nature of the application and its siting it is not considered necessary for the Conservation Team to provide further more detailed comments at this time. However, if you require further assistance, please do not hesitate to contact the Conservation Team.

Kind Regards

Emma Harrison
