Dear Katherine Daniels

We object strongly to this planning application. It is the wrong development in the wrong place. Is there really a need for a fishing village in this area? We believe that what little demand there is, is already met by existing facilities.

In no way does this application meet the planning requirements of The Cherwell Local Plan.

The environmental impact would almost certainly be significant and detrimental to this beautiful rural area.

Questions abound: water, drainage, waste, wildlife, light pollution, hazardous increase in traffic on an already busy road?

In our view this application may well be a stalking horse: it purports to be for a smallish fishing village but past experience persuades us that it could be the start of a much bigger and more intrusive development.

The application has no merit at all and we ask that it be rejected.

Please can this email be published on the planning portal.

Yours sincerely
