Comments	<input type="text" value="I think this would be an excellent development for the likes of myself and family. We are desperate to try and get back to living in Cropredy, our parents live there, and children go to school there, as well as working close by in Appletree. We had to move out of the village 3 years ago, via housing association as our bungalow could not accommodate our growing family. We would very much like to be able to move back to the village, and understand some of the properties that could be built would be social housing. We have many connections to the village and this would be a great opportunity for us. My partner had lived there since the day he was born, now 32 years old and was extremely upset to be forced to move due to lack of affordable housing in the area. We are in support of this development as it means we may have a chance to live back in the village that his father has lived in for 60+ years."/>
