Caroline

I have read through the Habitat Management Plan and I have no major issues with it. My only suggestions would be that they should move the Southern Aspect triple swift box to a slightly different aspect (any with relatively clear flight lines) - South facing boxes are not ideal as they can get too hot. If this is amended then I would be happy for conditions 4 and 12 to be discharged on the basis of this document.

Kind regards  
Charlotte

**Dr Charlotte Watkins**
