Dear Ms Whitehead,

Please accept this firm objection against the development proposal from Great Lakes UK Ltd which is not in accordance with the local development plan, and there are no material considerations that would warrant planning permission being granted.

In light of current and future environmental affairs being inclined towards sustainability, the proposed development of a 500,000 sq. ft of buildings on this greenfield site is wholly unsuitable, and unsustainable in an inappropriate location on the edge of a village.

The development includes 900 car parking spaces, which is a significant reliance on car travel which goes against the Cherwell Strategy of reducing car usage. The 18 hole golf course users, now have to drive to another 18 holes course, this too increasing car usage.

Paramount for me is the irreversible damage that would be caused to the greenfield site, removing important green infrastructure, and disrupting ecological habitats.

Yours sincerely,
