Comments	<input type="text" value="I object to this planning application on the basis of:
Too much development on the North side of Banbury, causing too much congestion and additional traffic, including through Hanwell's small Main St.
Brown field sites must be used before other types of land, particularly agricultural.
I am concerned about food security and the environment. This land should be used for agriculture or tree planting to reduce this country's carbon footprint.
Too many housing developments have led to many natural habitats for wildlife being destroyed and the natural ecology of the land has been devastated. The rural wildlife that has survived hundreds of years is being squeezed out of the area.
What attracts people to this area is being destroyed and no amount of financial gain from housing developers should persuade any council to lose sight of what they would be relinquishing!"/>
