Comments	<input type="text" value="I believe the last application to build on this land was rejected as it would have an adverse impact on both the landscape and visual amenities of the setting of the Conservation Area and it would be harmful to the Registered Park and Gardens and listed buildings around it. So I do not see why it is even proposed, once again, to build new houses on this land. I strongly object to this application as I do believe it would have an adverse impact on the character and appearance of the Conservation Area and the setting of the Park. Also, I have serious doubt that there is capacity for sewerage in this area of the village as there have already been serious back up issues. Also I doubt the safety of future residents as there are not adequate pathways for pedestrians."/>
