Comments	<input type="text" value="Alongside the numerous valid objections regarding access and associated concerns for public safety, environmental impacts and congestion I would like to also object on the basis of the increased pressure being created on public services. Whilst being fully aware of the need for provision of more homes, merely continuing to build houses but not increasing facilities such as schools and especially health and social care locally is a grave concern. Aside from the developments to the north of the town this area of banbury is continuing to grow at an alarming rate. The Redrow development is approaching completion and already planning has been approved for 1,000+ properties on land opposite. The local hospital is already at crisis level and creating increased demand on services will only escalate the situation further."/>
