<b>Comments</b>	<input type="text" value="If this development were to go ahead it would be detrimental to the local eco system. There are deer roaming as well as birds and insects that rely on the fields and woodland to survive. The influx of new traffic isn't sustainable into Hanwell village; the Warwick road is busy as it is and turning left out of hanwell is difficult as it is. Along with the proposed development on the opposite side of the road it will cause chaos for local traffic. Along with all the new houses that are already here plus future developments there has been no improvement to infrastructure or services. Banbury has limited shops, no new doctors or health services; which are stretched as it is. Further housing will be a bigger strain on these services and the local community will suffer as a result of more people but less capacity for serving them. The north of Banbury is less well served with shops and buses and really does not need additional housing to add to this"/>
