Comments	<input type="text" value="Bicester is yet again being subject to additional house building with no additional infrastructure if this goes ahead. We are in desperate need of new sports facilities, youth facilities a new leisure centre suitable for 2020 not 1980, a thriving town centre and not to mention GP surgeries and medical treatment access. The current houses at kings mere are not finished nor are they anywhere near to full in the places they are and are jam packed together. The road infrastructure through and around Bicester is appalling with horrific pot holes. Bus services are declining rather than improving and development for sports at Chesterton has just been rejected. Bicester village seems to be our councils main objective and after that keeping the builders happy. What about the paying residents that want to see a thriving town with a thriving community? We have none, redevelop our town centre to support bars, restaurants and pubs. Give us the infrastructure we need with better access to healthcare and leisure facilities and then maybe you could consider yet more I'll thought out 'affordable housing' that in reality first time buyers can't afford at all."/>
