<b>Comments</b>	<input type="text" value="With regard to this application I would like to say that, having lost a friend to a traffic accident on this road, I do not think that another access on to the A422 is safe. A lot of water lies on this road and vehicles travel at speed as it is a long stretch, more vehicles pulling out will increase the danger of an accident. In addition to this we hear about Cherwell supporting conservation but keep getting bombarded with applications that would alter the habitat of a lot wildlife in this area. Why can't the countryside remain so and development take place in areas which would benefit from regeneration and improvement? Thank you."/>
