Comments	<p>As per my initial objection, prior to the amendment I still believe this development is on too larger scale for our village.</p> <p>Whilst I appreciate the need for a bigger facility the design of the new doctors surgery looks like it has landed from uptown suburbia and is not at all in keeping with the stone and brick properties in the village.</p> <p>Considering how our new build house in the village had to have stone on the face (when we are not at all visible from the main run through the village) rather than wooden cladding I'd be amazed why this would pass.</p> <p>There is also not enough of a connection with the village. The whole site lives outside of the village boundary. Others have struggled to get permission for one house outside of the area let alone 60.</p>
