Comments

Whilst I am not completely object to new development in the village I believe an additional 60 houses is surplus to any requirements.

Fundamentally Cropredy is a category A village with wonderful facilities and community. It boasts many positives and is a place enjoyed by many. However, I believe there are a few areas of concern for such a significant increase on numbers in the village.

Firstly, our roads are already crumbling and filled with a substantial amount of tyre eating holes, the increase in traffic through the village by at least 100 plus cars is only going to worsen the situation. The Dr's surgery is already bursting at the seams and could not handle another boost in patient sign ups. Whilst it would be great for the primary school to have more bums on seats the road is already congested at school times and more cars will only make it worse. I can quarantee that not all parents would walk from that end of the village as is already evident from current residents. The other cause for concern with education is a significant lack of places at the local RURAL secondary schools. Cropredy is not an ideal catchment for the best rural secondary's. All local secondary are full this year with many students whom live in `Cropredy not being allocated any of their choices despite them being the closest schools.
