<b>Comments</b>	<input type="text" value="yet another housing development on a field further increasing the size of the village and putting further strain on the resources. The Dr's surgery do not have the capacity for more patients so unless the housing developers are going to not only build a new surgery with the prior consent with the current surgery and pay for a full time GP's ongoing salary then this is going to make it even harder for the current residents to make an appointment many of whom are elderly and need a local practice. There is only a bus twice a week so this will mean more traffic through the village which is utter chaos at school pick up and drop off. We already have a huge flood problem within the village and building on more rural ground will only increase this problem. We do not need more housing in Cropredy, it has already been agreed that Cropredy should have in fill housing only and these developments are for profit for the developers only, the developers will just move onto the next village to see where they can make money again, this needs to stop, we cannot continue to build on rural land at the cost of our environment."/>
