Comments	<input type="text" value="I object to this planning application for all the same reasons I put forward in my objection made to the council on 20th May 2023. The only difference is at that time the surgery did not want to be associated with this planning application and now it appears they have been working with the developers these last few months in putting forward this new vision for Cropredy Surgery. It does not change the fact this large housing development would have a severe impact on the village for all the varied reasons put forward in the many objections from local residents, 85% of whom objected to this planning application when Cropredy Parish Council sent round a village survey. It is also not clear how this new surgery would be funded and the fact that it would not be built until 30 homes had already been constructed, could mean that it would never happen."/>
