Comments	<input type="text" value="I do not believe this is the right place for the mast to be placed, it's in a residential area on a busy foot route for schools.

There is vast open spaces available where this won't be an eyesore for the local residents to have to look at whilst enjoying their homes.
I also feel that this mast could impact the value of properties as many people will not want to live near an active 5g mast."/>
