Dear Sir or Madam

I am writing to object to the planning application for 60 dwellings and a community facility on the land to the north of Cropredy.

I have already objected (via email) to the original plans and the visual impressions for a new doctors' surgery have reinforced that objection. The building is totally too large and out of keeping with the rural nature of the village of Cropredy.

I trust that my previous objections together with this brief letter, will be taken into account at your Committee meeting.

Yours faithfully, Carol Bateman.
