Comments	If I could say one thing it would be to just look at the affect oxford has on the community. I'm 16 years old and going there for all the games gives me so much joy and takes my mind of everything going on at home. My experience is nothing however compared to the story of that young boy who overcame very hard and near death circumstances with the help of the club and Cameron brannagan and Simon eastwood. Alot of football clubs are not community minded and have very bad priorities, however oxford united and my club just arnt like that. When I have reached out to oxford in need and other fans have done so, we get a response and we get support! By supporting this stadium plan you are not only helping a Club who are greatly different in so many ways, but also helping young people like me, express themselves and the love of the game through their club. Please help us get our stadium and instead of trying to prevent it please come to a game and have a feel for yourself how uplifting oxford united football club truly is.
