Comments	I odject the proposed development, due to impact on the local area. 1, The destruction and lost of an existing green space and biodiversity area for development. 2, The traffic congession and distrudance that will effect the area, both local and general through traffic. 3, Allinating the local area on Match days , stopping people accessing local services. 4, Distrudance of the local public transport for local passengers and visitors to the City. 5, The need for the development when the existing stadium could be improved.
