Oxford United means to me like my local team that will be really easy to get to if the new stadium gets built also it feels like quite a nice and kind team but the away fans take the mick out of us for only having 3 stands also it has nice management kind football players and if we do move to kidlington the government will get a load of money and all kids will enjoy it and you will get very good atmosphere and the attendance will be really high we promise also it is right next to a train station If Oxford United never existed I could not of ever watched football in a high level My special connections is I have met all of the players and I am a ultra as I say the new stadium would feel very handy to get to and as I say are club will get a lot of money so we can afford are players and go up the the championship My club really matters to me because as I said it would be easy to get to because it is next to a train station my favourite memory's is when Oxford United went up the national league at Wembley also when Oxford played Wycombe and won to go up the league one also when Oxford won the milk cup vs Queen's Park Rangers I make a massive difference in Oxford United because I have got a season ticket For 12 years and I have never missed a game I feel amazing to part to be part of the Oxford United family also Oxford United need to move thank you James
