I'm writing to support Oxford United's new stadium plans.

I'm very impressed with the designs and visual representations that have been made public via the club's engagement strategies and it's clear the stadium will bring social and economic benefits to Kidlington, Oxford, and the wider county communities. I'm very pleased with the transport links being very close to Parkway station and the park and ride for easy access with minimal impact on local routes. The club has committed to being ecologically aware and the reduced environmental footprint of the stadium from it's all-electric power supplies, solar generation and the reduction in car usage by fans will benefit the local and wider environment for generations to come.
