Objection

neighbour

The development of a hotel and football stadium on the Triangle, an area of natural land located within the Oxford green belt, contravenes the many purposes of the greenbelt as set out in NPPF, and there is no exceptional circumstance to allow this development to proceed: a stadium already exists and its continued use could be renegotiated*, the area has no need of additional hotel space with several new hotels recently or imminently opening in the City.

*the statement by OUFC that they will become homeless within 2 years is unsubstantiated hearsay and should not influence this planning application.

The proposed site maintains considerable biodiversity which will not survive the proposed development, and is especially valuable given the encroachment of planned new developments adjacent. Offsite BNG is of no value to the local community.

Current arrangements for traffic management are inadequately addressed and the entire application should be deferred until a satisfactory traffic management plan acceptable to police and County Highways has been developed and presented to the public.
