This proposed stadium will provide brilliant transport links from all around the county of Oxfordshire. It will greatly reduce the need for car transport & will provide jobs and economic benefit for the people of Kidlington & beyond. This investment into one of Oxfordshire's oldest institutions is fantastic & the planning application and the 'Green Development' element of it will also enhance the biodiversity of the site.

Also as someone that comes to games from outside Oxfordshire by public transport, this makes my journey so much easier with great travel links via train & Bus. It will remove the need for myself and many others to travel by car & that is what one of the many advantages there is for this stadium.

100+ years of this Oxfordshire institution & the county's only professional football club must be protected, to not do so would be a massive dereliction of duty on the part of the people involved. The investment is huge and the net zero potential of this stadium is absolutely fantastic.

Please allow this stadium to go ahead, for my generation and the next & give our club a home it can be proud of forever.
