Traffic management concerns - the increased traffic and the delays, diversions and possible closures will have a huge negative impact on local people, who are just going about their daily business and trying to live their lives. Why should we be so massively inconvenienced by something that is of no interest and brings no benefit to us?

Parking concerns - "432" home fans that will drive to the stadium which is providing 0 parking for fans on site. Where will they go? They will want free parking on the closest roads and driveways and again inconvenience the people that live here. Why should we have to endure an evening and Saturday parking permit scheme to prevent this?
