Comments	This isn't just a sports stadium it's an opportunity for much more. More jobs in the local area a hotel and loads of other benefits are coming with the stadium if built. It's brings so much more money into the area and many more jobs for people young and old in the local area. The club have also promised to preserve land near the triangle to help wildlife so it can still live in it's natural habitat. This stadium is a massive opportunity for the city as a whole it's a great statement of intent by the club with so many positives coming with it. I am in full support of the stadium proposal and hope it well go ahead but just as fan but as a local resident.
