Comments	As someone who visits Oxford and Oxfordshire regularly, often for football, I'd like to support this proposal. Driving is the only viable way I have to get to the current stadium, but the transport link with this proposal is so much easier for supporters, and better for the planet. It also is, in and of itself, a greener stadium and therefore better for all. When this is added to the opportunities for the community, in terms of sports access, and jobs, there really are so many positives to be gained from this proposal
