I live in Summertown. Adjacent to Cherwell. The roads around here suffer from congestion and many traffic jams. Leading to air pollution and many other issues. This stadium will significantly worsen an already difficult situation. Stratfield Brake is a biodiverse wildlife habitat. Building this stadium will have a significant impact. For what end? Oxford United have a stadium. The infrastructure is already there. It's further away from residential areas with better transport links. Any damage to the ecosystem there - has already been done. This makes no sense on any level - other than making a profit.
