

sent a photo of the names on the scoreboard with the players looking over it to the family members of those fans we lost.

Football, especially Oxford United Football club, provides not just a sense of identity, but a place of safety, release and friendship. Please do not let this disappear within our community. What the club and fans have built over the past 130 years is incredible and really does change and save lives. Please support the planning application and let the club have the opportunity to provide top class facilities, support the community further and reach more people like me, who may be in their darkest times and need saving.
